

Auto Car Wash Blower

量表2021

DIRECTORY

由于技术进步,我们将适时改进产品外观及技术参数,产品实物指标以正式文件为准,恕不另行通知,谢谢!

For technical improvements, we will make appropriate modifications to the technical parameters and appearance without prior notice to the user. Products based on official documents. Thank you!

RIVALE

企业奉行"工匠精神",孜孜不倦的追求更高品质的社会认可,荣获国内外多项认证。

The company pursues the "craftsman spirit", tirelessly pursues higher quality social recognition, and has won a number of certifications at home and abroad.

STRENGTH CERTIFICATION

3KW二代洗车机风机 Auto Car Wash Blower

产品特性: PRODUCT FEATURES

- 1、进口PE塑料外壳,不生锈,强度高,抗老化,稳定性好。
- 2、合理的阿基米德螺旋出风,对比传统Q型,风效更高,动压强,风量大。
- 3、电机核心部件,防水等级高,防泡水,防喷射高压水渍进入内部,保护了电气性能。
- 4、同比传统,叶轮采用1.5倍厚度叶片,外加防锈表面处理,叶轮耐久性高,稳定性好。
- 5、安装便捷,维护简单,易于操作。
- 6、噪音低、振动小,进出风安全防护高。
- 7、优异的价格定位,配套强大的售后服务保障。
- imported PE plastic shell, no rust, high strength, anti-aging, good stability.
- Reasonable Archimedes spiral air, compared with the traditional Q-type, the air efficiency is higher, the dynamic pressure and the air volume are larger.
- The core part of the motor, with high waterproof grade, can prevent water from soaking and spraying, and can prevent high-pressure water from entering the interior, thus protecting the electrical performance.
- Compared with the traditional impeller, the impeller adopts 1.5 times thickness blade, plus antirust surface treatment, which has high durability and good stability.
- 5. It is easy to install, maintain and operate.
- 6. Low noise, small vibration, high safety protection of wind in and out.
- Excellent price positioning, supporting strong after-sales service guarantee.

技术参数

AND DESCRIPTION OF THE PROPERTY OF									
型号 Model	电压频率(V/Hz) Voltage/Frequency	相数(Φ) Phase	功率(W) Power	电流(A) Current	转速(rpm) Speed	风压(Pa) Pressure	风量(m³/h) Volume	整机噪音(dB(A)) Noise	
AWD-595-30	380V/50Hz	3	3000	12.5	2900	1800	3750	< 90 (1.5m)	

产品特性: PRODUCT FEATURES

- 1、进口PE塑料外壳,不生锈,强度高,抗老化,稳定性好。
- 2、合理的阿基米德螺旋出风,对比传统Q型,风效更高,动压强,风量大。
- 3、电机核心部件,防水等级高,防泡水,防喷射高压水渍进入内部,保护了电气性能。
- 4、同比传统,叶轮采用1.5倍厚度叶片,外加防锈表面处理,叶轮耐久性高,稳定性好。
- 5、安装便捷,维护简单,易于操作。
- 6、噪音低、振动小,进出风安全防护高。
- 7、优异的价格定位,配套强大的售后服务保障。

洗车风机

CAR WASH BLOWER (E @ ROHS

应用于龙门式洗车机

Applied to rollover car washing machine

浙江客户使用案例 (Zhejiang customer use case)

应用于隧道式洗车机

Applied to tunnel car washing machine

上海客户使用案例 (Shanghai customer use case)

应用于大巴洗车机

Applied to bus washing machine

北京客户使用案例 (Beijing customer use case)

5.5KW侧风机

Side Blower for Tunnul Car Wash Machine

产品特性: PRODUCT FEATURES

- 1、体积小,节省空间,安装便捷,操作简单。
- 2、耗电少,能效高,风量风压大。
- 3、同比传统,设计成本更忧,价格定位优势更大。
- 4、风鼓结构采用进口PE塑料,不生锈,强度高,抗老化,稳定性好
- 5、电机核心部件,防水等级高,防泡水,防喷射高压水渍进入内部,保护了电气性能。
- 6、同比传统,叶轮采用1.5倍厚度叶片,外加防锈表面处理,叶轮耐久性高,稳定性好。
- 7、同比传统超大侧风机,售后服务强大。
- Small size, space saving, convenient installation and simple operation2.
 Low power consumption, high energy efficiency, large air volume and pressure.
- Compared with the traditional design, the design cost is more worrying, and the price positioning advantage is greater.
- the wind drum structure adopts imported PE plastic, no rust, high strength, anti-aging, good stability.
- The core part of the motor, with high waterproof grade, can prevent water from soaking and spraying, and can prevent high-pressure water from entering the interior, thus protecting the electrical performance.
- Compared with the traditional impeller, the impeller adopts 1.5 times thickness blade, plus antirust surface treatment, which has high durability and good stability.
- 7. Compared with the traditional super large side fan, the after-sales service is strong.
